

Model Warrant Articles — Swanzey Capital Plan

DRAFT model language for discussion. Finalize with town counsel and submit to DRA pre-review. Numbers track Year 1 of the plan. Each reserve is a simple-majority vote (RSA 35); leverage articles are contingent on aid.

Group A — Establish the capital reserve funds (majority vote)

A-1 Public Works Facility CRF

To establish a Public Works Facility Capital Reserve Fund under RSA 35:1 for planning, designing, constructing, or acquiring a public works facility, to raise and appropriate \$150,000 to be placed in this fund, and to name the Board of Selectmen as agents to expend (RSA 35:15). (Recommended by the Select Board.)

A-2 Bridge CRF

To establish a Bridge Capital Reserve Fund under RSA 35:1 for the municipal share of Town bridges, including matching State Bridge Aid under RSA 234, to raise and appropriate \$50,000, and to name the Board of Selectmen as agents to expend.

A-3 Highway Reconstruction CRF

To establish a Highway Reconstruction Capital Reserve Fund under RSA 35:1 for reconstruction of Town roads including the Lower Winchester Street corridor, to raise and appropriate \$100,000, and to name the Board of Selectmen as agents to expend.

A-4..A-7 Equipment / Fire / Facilities / Technology CRFs

Establish (or fund) Highway Equipment (\$90,000), Fire Apparatus (\$70,000), Town Facilities incl. ADA (\$40,000), and Technology & Records (\$20,000) Capital Reserve Funds under RSA 35:1, each naming the Board of Selectmen as agents to expend.

Group B — Turn on the outside money (contingent on aid)

B-1 Christian Hill Road Bridge / State Bridge Aid

To authorize the Select Board to apply for, accept, and expend State Bridge Aid under RSA 234 for the Christian Hill Road bridge, and to raise and appropriate \$1,000,000 — \$800,000 (80%) funded by State Bridge Aid and the Town's \$200,000 share from the Bridge Capital Reserve Fund — with no new taxation this year. Contingent upon receipt of State Bridge Aid.

B-2 West Swanzey Water / DWSRF

To authorize the Select Board to apply for, accept, and expend NHDES Drinking Water State Revolving Fund loans and grants (including principal forgiveness) for the West Swanzey water system, with repayment through water user rates rather than general taxation. (Confirm the system's legal status — town vs. precinct — and the RSA 33 note structure with bond counsel.)

B-3 Town Hall ADA / CDBG

To authorize the Select Board to apply for, accept, and expend a Community Development Block Grant and/or accessibility grant for Town Hall ADA improvements, and to raise and appropriate \$250,000 — up to \$125,000 by grant and the balance from the Town Facilities Capital Reserve Fund — with no new

taxation this year.

Why the wording is fussy: DRA verifies enacted language against the minutes and will disallow improperly constructed articles. 'Establish ... and raise and appropriate ... and name ... as agents to expend' is the canonical RSA 35 construction — do not paraphrase. Model language only; not legal advice.
